EDUCATION

Rutgers University - New Brunswick — New Brunswick, New Jersey
Bachelor of Science in Computer Science — Sept. 2023 – May 2027
Minor in Psychology — GPA: 3.5

SKILLS

Technical Skills: Java, Python, C/C#, JavaScript, Adobe Suite, Figma, ReactJS, Node.js, Flutter, Blender, Unity, SQL, AWS
Relevant Coursework: Data Structures, Discrete 1 & 2, Computer Architecture, Algorithms, Software Methodology
Languages: English (Fluent), Spanish (Seal of Biliteracy, Fluent), Polish (Elementary)
Organizations: Rewriting the Code, Society of Hispanic Professional Engineers (SHPE), ColorStack, Creative X, Blueprint
Certifications: Blueprint Frontend Software Engineer Fellowship (2025), LinkedIn Figma for UX Design (March 2026), Blueprint UI/UX Fellowship (May 2026), CodePath Foundation of AI Engineering (May 2026)

PROJECTS

Save The King (C#, OOP, Unity) — Spring 2026

- Developed a 2D game using core game development principles, including real-time rendering, event handling, and game loop architecture
- Designed and implemented interactive gameplay mechanics such as player movement, collision detection, and object interactions
- Applied object-oriented programming concepts to structure game entities, improving code modularity and maintainability

RUMBL (React, JavaScript, HTML, CSS, API) — Fall 2025

- Built a React-based application that fetches and renders real-time data from a public open-source API.
- Integrated Open-source API (The Meal DB) and used its data to provide recipe information for a Tinder-like Web App
- Styled interactive UI elements, including animations, cards, recipe category tags, instructions, buttons, and hover effects, to improve accessibility and user engagement.

Psychora (Figma, Adobe Express, Procreate) — Spring 2025

- Designed the UI/UX for a mental health mobile app featuring mood tracking and journaling tools.
- Integrated a prototype AI chatbot 'Chora' using natural language processing, enabling personalized emotional support and earning *Best Use of Adobe Express* at CreateRU Designathon.

Aberdeen Honey (HTML, CSS, JavaScript) — Fall 2024

- Developed a responsive e-commerce site for a local business with product listings and interactive design.
- Implemented 65% of core functionality, including catalog and contact forms; preparing for live deployment.

PROFESSIONAL EXPERIENCE

Fiserv — Berkeley Heights, New Jersey
Summer Technology Intern — June 2026 – Aug. 2026

- Designed and developed an AI-powered analytics dashboard that transformed Incident and Jira data into actionable operational insights.
- Built cloud-ready applications using Docker and deployed them to AWS using ECR, ECS, Application Load Balancer, and Route 53

Blueprint — New Brunswick, New Jersey
Frontend Engineer Educational Director — Jan. 2026 – May 2026

- Lead frontend software engineering instruction for cohorts pursuing Blueprint certification, designing and presenting structured slide-based lessons that cover core frontend technologies.
- Collaborate with other Educational Directors to align curriculum, teaching strategies, and assessments, ensuring a consistent, high-quality learning experience across student cohorts.

Rutgers Marching Band — New Brunswick, New Jersey
Webmaster — Dec. 2024 - May 2026

- Maintain and update rutgersbands.com with accurate schedules and performance content for 350+ band members.
- Ensure consistent communication across the website and social platforms. Collaborated with social media specialists.
